THE WATER QUESTION.

The question of saving the heavy flow of water that runs to waste down the Truckee river in the Spring, has been discussed time and again, but the importance of the matter will justify still further comment. The value of the water so lost is becoming more apparent as the demand for it increases, and some action should be taken to store it away for use in the Summer time. Washoe valley is rapidly improving its agricultural facilities, and every acre of land that is placed under cultivation will draw upon the water supply. Those who are familiar with the topography of the country around Lake Tahoe claim that, at comparatively small outlay, the outlet of the lake can be dammed, and an immense amount of water thereby saved. There are many other lakes in the Sierra Nevada range that could be converted into immense mountain reservoirs, and their waters brought to our valley. The agitation of this subject is not out of place, and considering the fact that our acreage of tilled ground is rapidly increasing, and that every land in the valley, and even the high lands in this vicinity, must eventually be brought under the plow, this water question is of the greatest importance.

The last act in the election of a President of the United States will take place on the second Tuesday in January. On that date the Electoral College of each State meets at its State Capitol. The electors cast their votes for President and Vice President. The vote is read, certified and sealed, and three copies are prepared, one to be taken to Washington by a special messenger and one sent by mail. The Secretary of State likewise receives a copy to be placed in the archives of the State. The business of the college has become mechanical and perfunctory. The electors are no longer free to choose whom they think proper persons for the high office as was intended by the fathers of the republic. They are more machines, "instructed" delegates to register the nation's choice. For all practical pur poses the Electoral College could be abolished. The people, by their votes on November 6, set their seal for President and vice-president, and the electoral college is simply a survival of an obsolete custom.

The vote of Washington Territory leaves no doubt as to the justness of her claim for admission to the Union. The official canvass shows a total vote of 46,348, which indicates a total popullation of over 230,000. The Governor of the Territory places the population at 250,000. The vote of the Territory is 5,614 greater than that of Rhode Island, 16,561 greater than that of Delaware, and is almost as large as that of Florida. Of the Republicanism of the Territory there is no longer any doubt. The Republican Delegate in Congress has 7,371 plurality. On joint ballot in the Territorial Legislature the Rapublicans have 28, the Demograt 3 and the Independents 2. Il South Carolina, with only a little over 70,000 votes, can send seven members to Congress surely Washing- places to move into. C. C. Chase thinks ton, with her 46,000, is entitled to at some of building an addition to his bilities.

The talk about an extra session of the Fifty-first Congress is revived, based upon the report that the Democratic Representatives from West Virginia will be given certificates, and that the Republican majority in the House will be only one. It is feared that, in case of death or accident before the first Monday in December, the Democrats might have a majority to organize, whereas, if there was an extra session called immediately after March 4th for the purpose of organization, the Democrats could by no possiblility obtain control.

THE CHURCHILL BREACH OF PROMISE SUIT, The Parties Highly Connected-

Verdict for Plaintiff.

The case of Larrina Walker against George B. Williams for breach of promise, which was tried in the District Court of Nevada at Stillwater, Churchill county, Judge R. R. Bigelow presiding, last week, resulted in a verdict for the plaintiff. The jury by a unanimous verdict awarded the plaintiff damages in the sum of \$4,000. The plaintiff is a family connection of United States Senator Mitchell, of Oregon, and the defendant a half-brother of ex-United States Senator Williams, of California. The verdict is said to be in accord with public sentiment in Churchill county, where the parties reside and where the defendant had the case transferred for trial from Humboldt county, where the action was brought originally. The plaintiff's side of the case was conducted

Coroner Brown held an inquest last night over John Eachus, the man who was killed near Jackman's ranch, west of Reno. The testimony showed that the unfortunate mun was lying on the track, but when he was discovered it was too late to stop the engine although every effort was made to do so. As soon as the engine was stopped York, the engineer, went back and found the body, but no signs of life being evident. he started off for Reno and informed parties of the occurrence. Coroner Brown departed on a special to the scene of the accident, and found the unfortunate man alive but sinking rapidly. He was brought to Reno where he died Sunday morning at 3 o'clock. The jury rendered a verdict in accord. ance with the above facts.

The Wool Rusiness.

The public veto that was given to the reduction of the tariff on wool at the last election is having its effect. Many of our sheepmen who were running larger bands than were profitable on their crowded ranges, find, since the 6th of November, that there is a market for their sheep and others are now going into the business. A number of large sales have recently taken place in Nevada and many of those who disposed of their flocks in California, believing that the reduction of the tariff was certain are again investing their money in

Sold Out.

The Wieland brewing and bottling establishment in Reno has been purchased by parties from Battle Mountain, who will take possession immediately. Mr. Francis, through whose energy the business was started and built up, has been offered a lucrative position in Chicago, and as soon as the affairs of the botthing works are settled he will probably depart for the East. In losing him Reno will suffer the loss of a live business man, and Chicago will gain one.

Facing the Truckee-The Aristocratic Riverside Avenue Driveway-Splendid Sewerage-Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckce River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat ashoe County, the wealthiest county in Nevada. Southern Oregon.

New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State, and there is no failure of crops.

Reno has Churches of all denominations, BishopWhitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric Farming Country of Nevada, light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

NEW ORLEANS, La.

I suffered with catarrh for many years and got so deaf that I went about my Museums, Circus and Theatre giving directions and doing business with a big ear-trumpet at the side of my head. It was very annoying to me and amusing to those who saw me. By the advice of physicians I sought the climate of the Sunny South. In six months I could see no change and was discouraged. At this time I began using Chalmer's English Catarrh Cure. In three months I felt a new man, in six months my hearing returned. I refused to give a testimonial at once for the English Catarrh Cure, as I feared it was not permanent. But a year and more has now passed, and I can now heartily indorse Chalmer's English Catarrh Cure for the cure of catarrh and deafness.
